

Appendix 1

Municipality of Lakeshore

Drinking Water Quality Management Standard

Quality Management System Policy Statement

That the Municipality of Lakeshore is committed to establishing and maintaining a QMS that is compliant with the DWQMS to facilitate the provision of safe drinking water to all consumers.

That the Municipality of Lakeshore agrees to:

- Ensure that the QMS appropriately addresses all aspects of the drinking water system;
- Comply with all relevant legislative and regulatory requirements for the supply of safe drinking water;
- Maintain and continually improve the drinking water QMS; and
- Communicate pertinent operational and water quality information to the Owner of the drinking water system, consumers, and the public.

That the ongoing compliance and continual improvement of the QMS will be achieved through formalized processes.

That all internal and external communication regarding the QMS will be conducted in accordance with DWQMS Element 12 - Communications.
