## Lakeshore Stormwater Master Plan Study

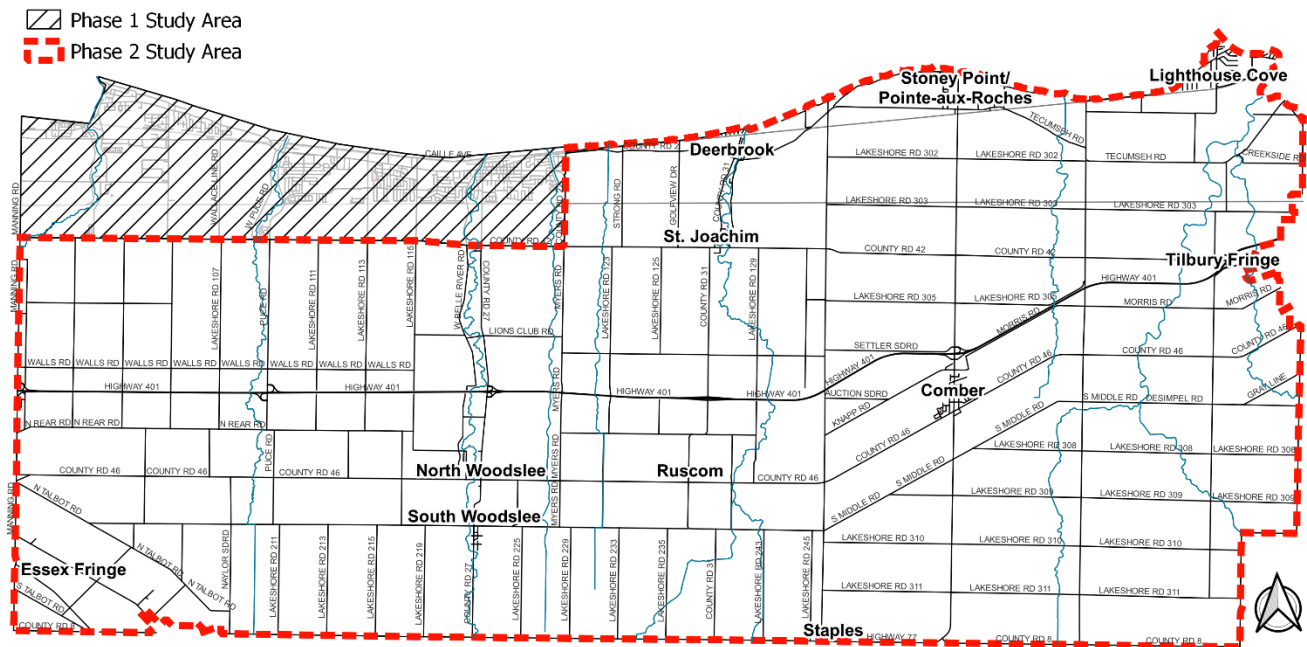

### Phase 2

#### Overview:

The Municipality of Lakeshore, through their consultant Civica Infrastructure Inc., is completing Phase 2 of the Stormwater Master Plan. The Master Plan for Phase 2 will outline and review the existing stormwater system comprised of a combination of municipal drains and municipal storm sewers. The Master Plan will develop a plan to effectively manage existing stormwater infrastructure and provide recommendations for areas of improvement and accommodate future growth. Phase 2 of the Master Plan is focused to the remaining portion of the municipality not studied in Phase 1, including the ten urbanized communities of:

- Comber
- Essex Fringe
- Lighthouse Cove
- Ruscom
- Rochester/Deerbrook
- St. Joachim
- Staples
- Stoney Point /  
Pointe-aux-Roches
- North and South  
Woodslee
- Tilbury Fringe

#### The Process:

This study is being conducted in accordance with the requirements of the Municipal Class Environmental Assessment, an approved process under the Environmental Assessment Act. The EA process includes extensive public engagement and consultation. Two rounds of consultation are being held, providing opportunities for the public to participate in the study. Information on the first Public Information Centre will follow. We look forward to your input!

Please visit the study's webpage at [lakeshore.ca/SWMP2](http://lakeshore.ca/SWMP2) to learn more about the study and to help shape the Stormwater Master Plan.
